PROFESSIONAL OVERVIEW

Results-driven Full Stack Java Developer with 4 years of experience in Java microservices, Spring Boot, Redis, Oracle DB, and React JS. Skilled in building scalable, high-performance systems with secure API integrations and efficient data handling. Experienced in Docker, Kafka, and Agile leadership, with a proven track record of mentoring teams and delivering enterprise-grade solutions. AWS Certified Cloud Practitioner with a strong foundation in cloud principles and modern deployment practices.

WORK EXPERIENCE

Associate Consultant

Infosys Limited, Jaipur | December 2024 - Present

- Led the Java version upgrade, ensuring seamless migration with minimal disruptions.
- Maintained and optimized legacy code, improving efficiency and reliability.
- Collaborated with stakeholders to align technical solutions with business objectives.
- Include key words from the job description in your resume.

Focused on delivering robust, scalable, and future-proof applications, while ensuring smooth project transitions and long-term maintainability.

Business System Analyst

Axis Bank Limited, Mumbai | December 2021 – November 2024

- Developed and optimized REST APIs, ensuring high performance, security, and scalability.
- Led the implementation of new software solutions.
- Worked closely with stakeholders to develop and execute project plans, ensuring seamless integration.
- Integrated Apache Kafka for real-time data streaming and processing-, improving system reliability.
- Designed front-end components using HTML, CSS, and ReactJS, enhancing user experience.
- Performed log analysis to troubleshoot system errors and optimize performance.
- Adhered to coding standards and participated in code reviews to ensure best practices.

Through data-driven decision-making, project management, and system enhancements, I contributed to operational efficiency improvements that supported Axis Bank's digital transformation efforts.
